

HOW TO PRINT FROM YOUR DEVICE USING UTKPRINT

UTKPrint is a mobile printing service within VolPrint that allows devices like laptops, tablets and phones to send jobs to most VolPrint printers.

1. Log into utkprint.com using your NetID and password.
2. Click the Upload button and navigate to the files to be uploaded for print.

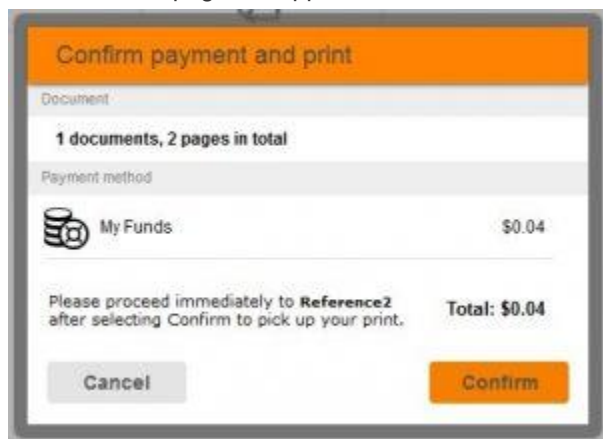

3. Check the box next to the job to print.
4. Set Print options

5. In the magnifying glass, enter the desired print locations (i.e. Commons, Reference, Tickle) and select a printer.

A confirmation page will appear.

6. Click Confirm and go to the designated printer to pick up your print.
